Please join us for the Interior **Issues Council Climate Change Task Force** Prioritization Workshop on **Monday, June 8, 2009**, Noel Wien Library Conference Room.

Our work is a continuation of the *FNSB Assembly Resolution 2007-40* to develop a climate resilience action plan (see Appendix A in attached report). The report represents the completion of Milestone 1: studying and assessing climate vulnerability. The outcome of this meeting will complete Milestone 2: prioritizing actions.

Margit Hentschel, former ICLEI program manager, will be facilitating this meeting. Margit has been closely involved in climate change issues in Alaska and has extensive experience with the 5 Milestone process.

The goal of this meeting is to prioritize listed recommended actions. Please review the attached report, paying specific attention to sections 5-7, recommended actions in the short-, medium-, long-term (pp. 48-56). These are the recommendations that we will be voting to prioritize at the workshop.
